USPTO

Attention:

Examiner - John Lacyk:

Application number: 10/627,286

Couple of months have passed since our last communication with you - and at least 5 months since you have had any contact with us. We've been keeping close track via "PAIRS" which is quite helpful. Nevertheless, I continue to believe it would be helpful to speak with you on the phone [which I have attempted to do numerous times with no success].

We do understand your busy schedule; however, due to several serious chronological USPTO missteps over what will now be five [5] years next month; I will attempt several more telephone calls to you over the next weeks. In addition, if you can't break away to call us yourself; maybe just a short fax message as to where we are at this late date would be very helpful.
